INTRODUCTION

Spectrum Plastics Limited is an independent, family owned company. Established in January 1998 we have built foundations on bespoke plastic mouldings ranging from Automotive Components through to Nursery/Push chair Industry components. In addition to these areas, we have moved into generic Industrial Furniture and Shelving System mouldings.

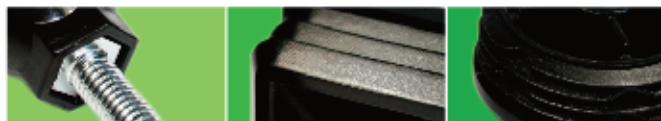

According to our long standing and established customers, we consistently offer outstanding product quality, a quick and efficient service and supported further by highly competitive pricing.

Our current bespoke AND generic ranges are expanding with new products monthly as more companies are recommended to use our service.

We would like to offer the benefits already enjoyed by our satisfied customer base to new areas of industry.

Whilst maintaining a healthy UK based injection moulding operations, bespoke and contract, **Spectrum Plastics** has (since 2001) forged strong relationships with Chinese manufacturers. Many new opportunities including injection moulding, ancillary assembly/packaging processes and finishing techniques have come from these new strategic relationships.

Now, we are essentially a 'One Stop Shop' where customers can bring ideas and have them realised as either stand alone, or packaged/presented products.

SERVICES

PRODUCT DEVELOPMENT

Spectrum Plastics have developed a custom moulding service to offer customer support, with expert advice, from initial conceptual design through to finished product.

Please contact us if you are looking to purchase new tooling as we may be able to modify an existing component to meet your requirements.

We typically work within a 4-8 week lead-time depending on the brief.

Spectrum Plastics are your 'One Stop Shop'.

CHINESE SERVICES INCLUDE:

- **Injection Moulding:**
Standard, Multi-Shot, Insert, Blow and Rotational moulding using Machine Press sizes up to and including 450 tonnes are available.
Using Standard Grade and Technical Polymer expertise.
- **Printing:**
Silk Screen Heat Transfer, Printed Packaging Graphic/Photographic.
- **Blister Packaging, Product Assembly.**
- **Full ISO / Quality Assurance Compliant.**
- **Full UK Import, or direct FOB, sales available.**

HOOKS

Developed as attractive replacements for dangerous Aluminium or Steel coat hooks. Virtually unbreakable, offering effective vandal resistance, and cannot be bent/snapped. In addition they have curved arms which do not pose a risk to children/adults when placed at eye-level.

Attractive Spark finish. Available in Black, Grey and Blue ex Stock at present, other colours can be made to order. Simply secure them to the wooden coat rack, or anywhere for that matter, with standard screws. Countersunk holes ensure smooth lines when in place.
